Dear New Patient

Welcome to Purton Medical Practice

To register as a new patient you need to complete a Registration Form, Ethnic origin form and a New Patient Questionnaire for each patient joining our practice list. We would be grateful if you could complete these forms as fully as possible as it will provide us with the essential information we need for our records.

Please note we are unable to register you with the practice until we have all these completed forms returned to us.

We **do not** routinely ask you to visit the nurse for a new patient check as we know that some people find it difficult to attend appointments. Once registered, the Nurse also checks the questionnaires and enters the relevant information to your records, if she feels that it may be helpful for her to meet you to obtain further information and maybe for further routine tests, we will contact you and ask you to make an appointment.

We have a very informative website which you may like to browse: -
www.purtonsurgery.co.uk.

Could I also take the opportunity to mention that we have an active patient participation group (this is a group made up from our registered patients), the 'PPG' group help organise health promotions, talks and other events. We are very grateful to anybody who is able to support PPG in any way they can. Please contact Kai Howard (Practice Manager) at the Surgery if you would like any further details about the group.

Please contact the Surgery if you have any questions, our Receptionists will be happy to help.

Yours sincerely

Mr Kai Howard
Practice Manager

SUPPLEMENTARY QUESTIONS

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice. However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK. Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges. More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

a) I understand that I may need to pay for NHS treatment outside of the GP practice

b) I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested

c) I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

Please tick if you have an S1 (e.g. you are retiring to the UK or you have been posted here by your employer for work or you live in the UK but work in another EEA member state). **Please give your S1 form to the practice staff.**

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost recovery process.

Your EHIC, PRC or S1 information will be shared with The Department for Work and Pensions for the purpose of recovering your NHS costs from your home country

COLLECTING INFORMATION ABOUT YOUR ETHNIC ORIGIN

Everyone belongs to an Ethnic group, so all our patients and service users are asked to describe their ethnic group

We are collecting this information to help the NHS and Social Services.

✳ Understand the needs of patients and Service Users from different groups and so to provide a better and more appropriate service for you

✳ Identify risk factors – some groups are more at risk of specific diseases and care need, so ethnic group data can help treat these patients and support Service Users, by alerting staff to high risk groups.

✳ Improve public health by making sure that our services are reaching all our local communities and that we are delivering our services fairly to everyone who needs them.

✳ Comply with the Law as Race Relations (Amendment Act 2000) – gives public authorities a duty to promote race equality and good race relations and ethnic monitoring is important in making sure that race discrimination is not taking place.

NHS Summary Care Record with additional information

If you are registered with a GP practice in England you will have a Summary Care Record (SCR), unless you have previously chosen not to have one. It includes important information about your health:

- Medicines you are taking
- Allergies you suffer from
- Any bad reactions to medicines

You may need to be treated by health and care professionals that do not know your medical history. Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs. Having an SCR means that when you need healthcare you can be helped to recall vital information.

SCRs can help the staff involved in your care make better and safer decisions about how best to treat you.

You can choose to have additional information included in your SCR, which can enhance the care you receive. This information includes:

- Your illnesses and health problems
- Operations and vaccinations you have had in the past
- How you would like to be treated - such as where you would prefer to receive care
- What support you might need
- Who should be contacted for more information about you

What to do next

If you would like this information adding to your SCR (or the SCR of someone you are a carer for), then please complete this form, for return to the relevant GP surgery.
